DAAD, a public funded, self-governing organization of the institutions of higher education in Germany, promotes international academic exchange as well as educational co-operation with developing countries through a variety of funding and scholarship programmes.

The Collaborative Master of Science in Agricultural and Applied Economics (CMAAE) programme of the African Economic Research Consortium (AERC) is run in a network of 17 participating universities in 13 countries in Eastern, Central and Southern Africa.

The CMAAE PhD fellowship programme aims at building the staff capacity of network universities that may not have adequate capacity in research and teaching at the post graduate level. The PhD should be in Agricultural Economics through coursework, research and thesis in Sub-Saharan Africa among CMAAE-accredited universities within East Africa (Kenya, Uganda, Tanzania, and Ethiopia).

DAAD in cooperation with the CMAAE Programme of AERC, is offering up to 6 in-country, in-region PhD scholarships in Agricultural and Applied Economics. The objective of this cooperation is to support the national and regional postgraduate training programme offered by AERC.

APPLICATION REQUIREMENTS

A. PhD Fellowship Programme for CMAAE Network Faculty Members
- All applicants must be holders of a masters degree in agricultural and applied economics, or related discipline;
- Applicants must be staff or potential staff members of a participating CMAAE university who are earmarked for staff retention to build the teaching and research capacities of departments of agricultural economics;
- Applicants must be recommended by a participating network university. The recommendation letter must indicate the willingness of the university to absorb the candidate upon successful completion of his/her PhD.

B. PhD Programme for CMAAE Graduates
- Must have attained at least a Second Class Honours (Upper Division) or equivalent in their undergraduate degree in Agricultural Economics or related field from an accredited university;
- Must have a masters degree with coursework and thesis component in Agricultural Economics, Economics or related fields from a CMAAE network university;
- The coursework should have covered microeconomics, macroeconomics and quantitative methods;
- Possession of at least one relevant publication in a refereed journal will be an added advantage;
- Evidence of engagement in economic management, research and/training in the public sector will be an added advantage;
Eligible Fields
Fields of specialization covered in the CMAAE programme include Agricultural and Rural Development, Agricultural Policy and Trade, Environment and Natural Resource Management, and Agribusiness Management.

Duration and Commencement
Scholarships are available for up to a maximum of three years, initially granted for one year and may be extended upon individual request and receipt of a complete application by using forms to be provided. The duration of the PhD programme is 3 years, generally starting in September 2020.

Application Procedure and Deadline
Interested applicants must submit their applications for admission directly to the respective host universities (application procedure can be obtained from the respective university websites). Upon receipt of an admission letter, temporary admission letter or letter assuring admission from the specific university, the applicant should apply for scholarship by submitting the following documents via http://scholarships.aercafrica.org/ not later than January 31, 2020:

- Hand-signed curriculum vitae; please use the Europass CV template http://europass.cedefop.europa.eu
- DAAD application form duly filled (available in the DAAD-Portal)
- Certified copies of all university degree certificates
- Certified copies of all university transcripts
- At least a temporary admission letter or an official letter assuring admission, including fee structure of respective course (original or certified copy)
- Letter of motivation (Maximum 2 pages)
- For faculty members, a reference letter from the Head of Department as a proof of employment (original only)
- PhD proposals which must demonstrate relevance to agricultural development
- Two (2) recommendation letters from academic referees who are at least Senior Lecturer in rank.

A joint selection committee of AERC, DAAD and other partners will be set up to review the shortlisted applications and to do the final selection of scholarship holders. The shortlisted candidates will be invited to log into the DAAD Portal and apply for the DAAD scholarship. DAAD will carry out plagiarism tests on the proposals.

Females, candidates from less privileged regions or groups as well as candidates with disabilities are especially encouraged to apply
