

The Job Ladder

Transforming informal work and livelihoods in developing countries

Edited by Gary S. Fields, T. H. Gindling, Kunal Sen, Michael Danquah, and Simone Schotte

- Examines and compares the distribution of workers across different work statuses in a range of developing economies using a common conceptual framework
- Explores the consequences of worker mobility for income gains and losses
- Uses country studies to establish the policies that need to be implemented to transform the livelihoods of workers in developing countries, especially those in informal work
- An open access title available under the terms of a CC BY-NC-SA 3.0 IGO licence.
