

STATA Tricks: A Two-Part Webinar for African Graduate Students

The American Institutes for Research (AIR) Pipeline Partnership program (P3-Africa), in collaboration with the African Economic Research Consortium (AERC) and the Union for African Population Studies (UAPS) is pleased to invite graduate students in Economics, Population Studies, and related disciplines at African universities to a two-part webinar on STATA tricks. Led by Dr. Sudhanshu Handa, Institute Fellow at AIR and Professor of Public Policy at the University of North Carolina, USA and Dr. Paul Sirma, Economist at AIR, these sessions will help you refine your data visualization and regression output presentation skills.

What You'll Learn

- ✓ Create rich descriptive graphs for data analysis
- ✓ Generate summary graphs of coefficient estimates from regression models as shown below
- ✓ Use OUTREG2 to produce journal-quality tables for research manuscripts
- ✓ Get access to sample STATA code for practice

Some of the STATA graphs we will tackle in the webinar

Webinar Schedule

Session 1: Wednesday, March 26, 2025

Session 2: Wednesday, April 2, 2025

Time: 4:00 PM – 5:00 PM (EAT)

Who can attend?

Registration is free and open to all current graduate students attending an African university. Students may participate in either or both sessions as they like. To register, please follow this link:
